## ABOUT ME

---

I am a software developer with solid knowledge in application development, databases, and scalable solutions. I consider myself responsible, proactive, and adaptable, with the ability to work effectively both independently and as part of a team. I am highly motivated by continuous learning and committed to applying innovative ideas that add value to every project I am involved in.

## EDUCATION

---

### Unidad Educativa 17 de Abril – Ecuador

High School Diploma in Science

### Technical University of Ambato – Ecuador

Engineering in Information Technology (in progress)
